Date : 2015

As a skilled shaper I'm presenting my resume' with hyperlinks (in blue) to introduce myself and solicit any available work that would fall within my range of experience.

I have 45 years experience here in the United States and internationally (Europe, Asia, North America and South America ). Graduated - 1973 Texas A&M University, Computer literate in Microsoft word, outlook and excel, able to read and interpret plans and coordinate logistics to move forward in the construction or renovation of most projects. Participated in bidding work. In international work I have performed as a consultant in behalf of Mr. Von Hagge and or his associates. Also in many instances performed as the lead shaper. I have moved thousands of cubic yards personally and managed moving thousands of cubic yards. Hands on experience excavating: ponds, lakes, sand traps, green cavities, swales, ditches, canals as well as managed excavating them. Estimating, I have 150,000 hrs. in building greens, tees, sand traps, fairways, and other features from start to finish and everything in between. Most of my career was spent with Mr. Robert Von Hagee and his associates. My resume will show that.

Recently finished Renovating an old Donald Ross golf course in Philadelphia Pennsylvania. I worked with Guaranteed Landscapes inc. in the earlier part of the year. Helped renovate 9 holes at North Gate CC. and the rest of 2015 was moving soil for Mini Sol Mining co. located in Nicaragua. They sold out in November leaving me without work. So at Present I am out of work. I have my passport in order. Once again I am available for work now. Also I would like to mention that in 2014 worked with Pioneer Mining inc. as a soil manager in Cameroon Africa. Basically was excavating overburden, stock piling and then reclaiming the land. Political upheaval sent me back to Texas.

## Qualifications

- <> 35 golf courses – Site clearing , Bulk earth Moving, Rough Grade , Finish Grade, Drainage , installed RCP, HDPE, PVC, Corrugated steel pipe , steel pipe
- <> Ponds, Reservoirs , Streams, Waterfalls – Small to ¼ acre to 30 acre on most projects.
